

AUSLEY'S

Chevelle
PARTS

#41 since 1980

www.chevelle.com
1964-1972

THANK YOU for requesting our 2022 catalog. We at Ausley's Chevelle Parts have spent a considerable amount of time putting together a catalog of the finest reproduction parts you can find. In business since 1980, we are one of the oldest and largest "Chevelle Only" parts suppliers. We ship UPS or FedEx anywhere in the United States and use the postal service for all out of country sales. Due to a constantly changing inventory, please feel free to call us on any hard to find parts you may not find within this catalog. Ausley's has always tried to offer you, the customer, the best quality Chevelle and El Camino parts at the best prices. Due to ever changing parts availability and manufacturer's price increases, we regret any price changes in this catalog.

PLACING ORDERS:

When placing an order by any of our 4 methods, please be sure to have the following information ready:

Physical shipping address, year model of vehicle, body style, engine size, color and credit card billing address, if applicable.

1) **By Internet:** Ausley's has revamped its popular website, now you can view our online catalog and place an order 24 hours a day, 7 days a week at your convenience.

2) **By Phone:** Ausley's has a knowledgeable sales staff just a phone call away at (336) 228-6701, Monday-Friday 9:00am-5:00pm EST, most Saturdays 9:00am-1:00pm.

3) **By Mail:** When ordering by mail please complete the order form in the back of the catalog. Personal and commercial checks require 15 days to clear. For faster service, you can use your credit card, a cashier's check or money order.

4) **By Fax:** You can place orders by FAX 24 hours a day at (336) 228-7566.

!! IMPORTANT -- TERMS AND CONDITIONS -- IMPORTANT !!

BACK ORDERS:

Ausley's attempts to fill orders within 24 hours. In the event an item is out of stock, it will be placed on backorder. Backordered parts will be marked on your invoice with (B/O) or high-lighted. These items receive top priority and are shipped as soon as possible. Most of our customers prefer to pay for any backordered parts at the time of purchase, so all orders will be processed in this manner. If you do not wish to pay for your backorders until they are shipped, please advise your salesperson.

PROBLEMS:

If by chance a problem arises on an order, please feel free to give us a call and we will correct the problem as quickly as possible.

SHORTAGES:

Any missing items must be reported within 24 hours of delivery.

REFUSED SHIPMENTS:

On any refused motor-freight shipments, the customer is responsible for all shipping costs incurred. All refused orders are considered canceled.

DAMAGES BY UPS OR FEDEX:

All items damaged in transit are the responsibility of the carrier. **Please keep all boxes and packing materials.** Contact the carrier immediately and the carrier will then contact us.

BY TRUCK:

Any orders shipped by freight liners must be opened in the presence of the carrier. If any items are damaged, you may refuse the whole shipment or, if the damage is minor and you think it can be fixed, you may accept the order, but you must note any damage on the bill of lading before you sign for your shipment. **If you do not inspect your shipment or fail to note any damage before signing for your items, the trucking company is released from any claims and the shipment is yours with no recourse.** All sheet metal shipments are inspected and carefully packed by Ausley's staff. It is the responsibility of the carrier to make sure your order arrives in the same condition in which it left our store, not Ausley's.

RETURNS:

No Returns Accepted after 30 days. If you are not satisfied with a part you have purchased, please contact us to obtain return authorization number. **No returns will be accepted without an authorization number. With your return we would request that you include a brief note describing the reason for the return. Ausley's will only accept returned items that are unused and are in resalable condition. Returned parts must be returned within 30 days of invoice date and must be boxed so damage to the items will not occur.** Return of items ordered by mistake or no longer needed will be subject to a 20% restocking fee. **No C.O.D. or postage due returns will be accepted. No returns of electrical parts accepted.**

INTERIORS

PRE-MOLDED CARPET

Ausley's sells top of the line molded carpets (ACC). We want to assure that you (our customers) receive the best possible carpet product on the market. As you have noticed Ausley's has increased the price of our molded carpets by \$10.00. In today's market, price is a factor in all purchases, however you may also get what you pay for, a cheaper product.

In the past Ausley's has used other carpet makers but, because of manufacturers trying to keep their prices down we feel the quality has been sacrificed. Ausley's now carries only the highest quality 80/20 loop style carpets offered.

Our pre-molded carpet is the finest 80/20 loop style carpet available in todays market. It comes complete with all sewings, bindings, insulation, heel pad and dimmer grommet. Most colors available and in stock.

AUSLEY'S CHEVELLE PARTS

AUSLEY'S SOUND MAT

This new alternative to existing materials will revolutionize the restoration market by offering the same quality you've come to expect from our products at a lower price than the competition!

Our sound mat is a high quality sound deadening material that provides excellent vibration and heat resistance, protection from annoying resonant frequencies and helps cut down road noise and drone from your exhaust system.

Features:

- 40% Thicker than the leading soundproofing material
- Heat tested to 350° F
- Absorbs road noise and annoying resonance from exhaust systems
- Up to 40% savings over the leading competition
- ISO certified and tested in both the U.S and Europe
- The same quality and service you've come to expect from Ausley's for over 35 years.

MASTER ENGINE FASTENER KIT

Authentic hardware to reassemble the engine components which attach to the long-block. Most fasteners come with the correct markings as original. Valve cover bolts, retainers, exhaust lock bridges, washers and timing cover and oil pan bolts are all stainless steel. All items are made in the USA and by buying our kits you will save over 30% off of trying to piece together a kit like this on your own.

VAPOR RETURN LINE SETS

These are the lines that run from the fuel tank to the vapor tank mounted on the left front fender well.

The set consists of the long line that runs along with your long brake line and the other short pieces at the rear of the car.

AUSLEY'S SHOW CAR GLAZE

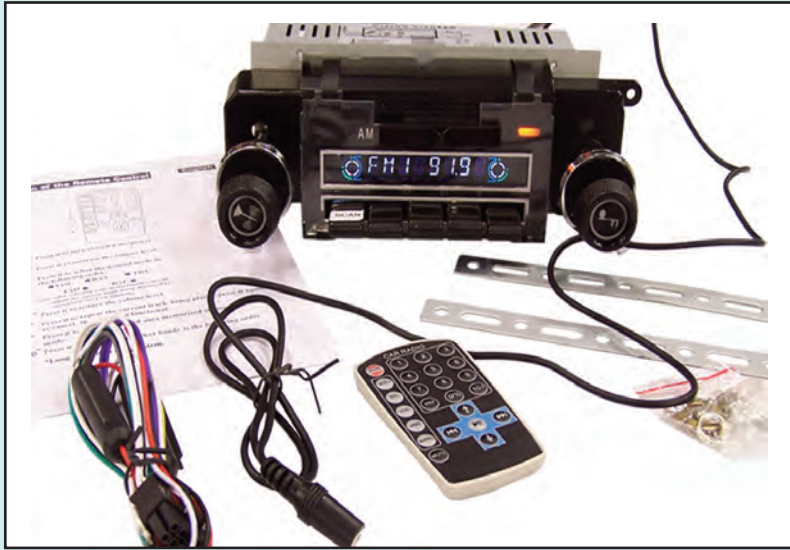

Superior gloss & protection for all types of painted & clear-coat finishes. A 90% gloss index makes your vehicle shine brighter than ever. Economical 12 oz. bottle will easily polish 3 average size cars. Easy application provides long term protection against acid rain, tree sap, bird droppings, & other harsh elements.

#AW000.....\$ 9.95 12 oz. Bottle

REPRO RADIOS

TODAY'S TECHNOLOGY MEETS CLASSIC STYLE!

Ausley's now offers it's all new radios for your 1966, 1967, 1969, 1970, and 1971-72 Chevelles and El Caminos. The face of the radios are a reproduction of the original, while the electronics have the stability and features of a radio produced for a 2009 and up model car. All radios come complete with the inner and outer knobs, wiring harness, MP3 and IPOD adapter cable, remote control, mounting brackets and screws.

Features include a built in SCAN button to allow you to easily SCAN through stations. Easy ON, by pressing any button, the radio turns on. Original style AM FM slider. Four original style presets. Original yellow or blue dot stereo light that lights up continuously while the radio plays. The ability to play songs directly from your MP3 player. With the standardized 3.5 mm jack located on the back of the radio you can connect the supplied cable directly to your MP3 or IPOD player and activate the MP3 mode by pressing in on the tuning knob. You adjust which track you want to listen to by just turning the knob to the left or right. Now all the MP3 features work exactly the same with the 10 Disc CD Changer that we also offer for the Retro Radios. Other features of the radios that must be controlled by the remote include: adjusting the Bass, Treble, Fade, and Balance. By using the remote you have an additional 6 presets for a total of 10. The remote includes extra function buttons for Repeat, Auto Search Presets, BAND, Mute, along with your standard play controls. Your Retro Radio comes with a 7 page instruction manual on the features and functions of the radio. Installation is simple and straight forward with a wiring diagram included right on the case.

45 Watts per channel / 180 Watts of total output
4 Channels / 4 speaker availability
2 RCA Outputs
CD Changer Input Port
3.5 mm Jack for IPOD/MP3
